Titan Systems, Titan Service.

Your Property Managed Your Way.

Titan Property Management (TPM) is an experienced, full-service property management company. We are dedicated to one business: providing commercial and residential income property owners with hands-on, professional management of their investments. It's been our business since 1983.

TPM will manage your property with the most effective methods and knowledgeable staff available in today's property management industry.

We Focus on the Details

You Reap the Rewards

TPM believes property ownership should be rewarding. With Titan on board, it will be. Titan strives to create the right balance between income potential and necessary expenses; the best fit between owner and tenant, for a long-term relationship.

Our only business is to relieve owners of the day-to-day details – so you can relax and attend to other business.

We Treat Your Investment Like Our Own

At TPM, our business model is our own experience. We've built and managed our own investment properties from the ground up. We know what goes into making properties successful investments.

We know the value of efficiency, risk management, caring and courtesy. Every aspect of our service is focused on maximizing your investment.

We keep vacancies low so that your cash flows. So effective, clients call us their "profit managers".
